→ We work on PC with Windows

Data preparation for printing

- We work with the latest versions of Adobe Photoshop, Illustrator and InDesign – Ideally, your files are created in the latest versions of those programs.
- Please send us printable PDF/X-4 files, if possible created in the original size 1:1. Please take a look at the final print PDF in the original size to judge the final quality.
- All graphics must have a trim of 1,5 cm on all sides. We need trim marks at a distance of 1,5 cm.
- All colours used must be CMYK or Pantone coded.
- Image files must have a resolution of at least 75 dpi, ideally 150 dpi in the final size (1:1).

Data preparation for transparency print

- Please send us printable files as vector files, EPS or AI.
- All fonts and marks used must be converted into paths.

Data transfer

- Via email to your project supervisor, the maximum email size is 25 MB
- Via your FTP or web server: Please send us the access data (FTP address, user, password)
- Via our PLAN 3 FTP or web server: Gladly we give you a personal access to our servers

Attention !!!

- The offered prices are only for digital prints of printable data files.
- Additions as scans, photoshopping, digital artwork, colour changes, layout etc. will be charged according to performance and time required.
